

Environmental Policy

At Interface NRM Ltd we recognise our responsibility to safeguard the environment and are committed to:

- Continual improvement of our operations in a manner which enhances our environmental performance;
- Protecting the environment, including preventing pollution, reducing carbon emissions, and minimising the significant environmental impacts arising from our operations;
- Ensuring the efficient and sustainable procurement and use of all natural resources, including energy, water and consumables consumed during our operations;
- Considering environmental performance in the design of new and modified facilities, systems and processes;
- Being fully compliant with relevant environmental legislation, contractual obligations and industry codes of practice.

The Directors, in communication with the wider EOT, are responsible for and committed to the continual improvement of our environmental performance and the implementation of this policy.

All Interface employees should be aware that they have a responsibility in their operational area to ensure that the aims and objectives of the policy are met.

This policy is reviewed for continuing suitability, communicated to all our staff and is available to interested parties upon request.

Tim Barker
Managing Director
